

Analysis of Boundary Value Problems for PDEs

An afternoon in honor of

Gianni Gilardi

on the occasion of his 70th birthday

IMATI - CNR - Pavia  imati

February 20, 2017

Lectures by

Pierluigi Colli (Pavia)

Laudatio

Jürgen Sprekels (Berlin)

A nonstandard viscous Cahn-Hilliard system
with dynamic boundary condition and the DCH

Ulisse Stefanelli (Vienna)

The magnetoelastic problem

Alain Miranville (Poitiers)

Cahn-Hilliard models with logarithmic nonlinear terms

Franco Brezzi (Pavia)

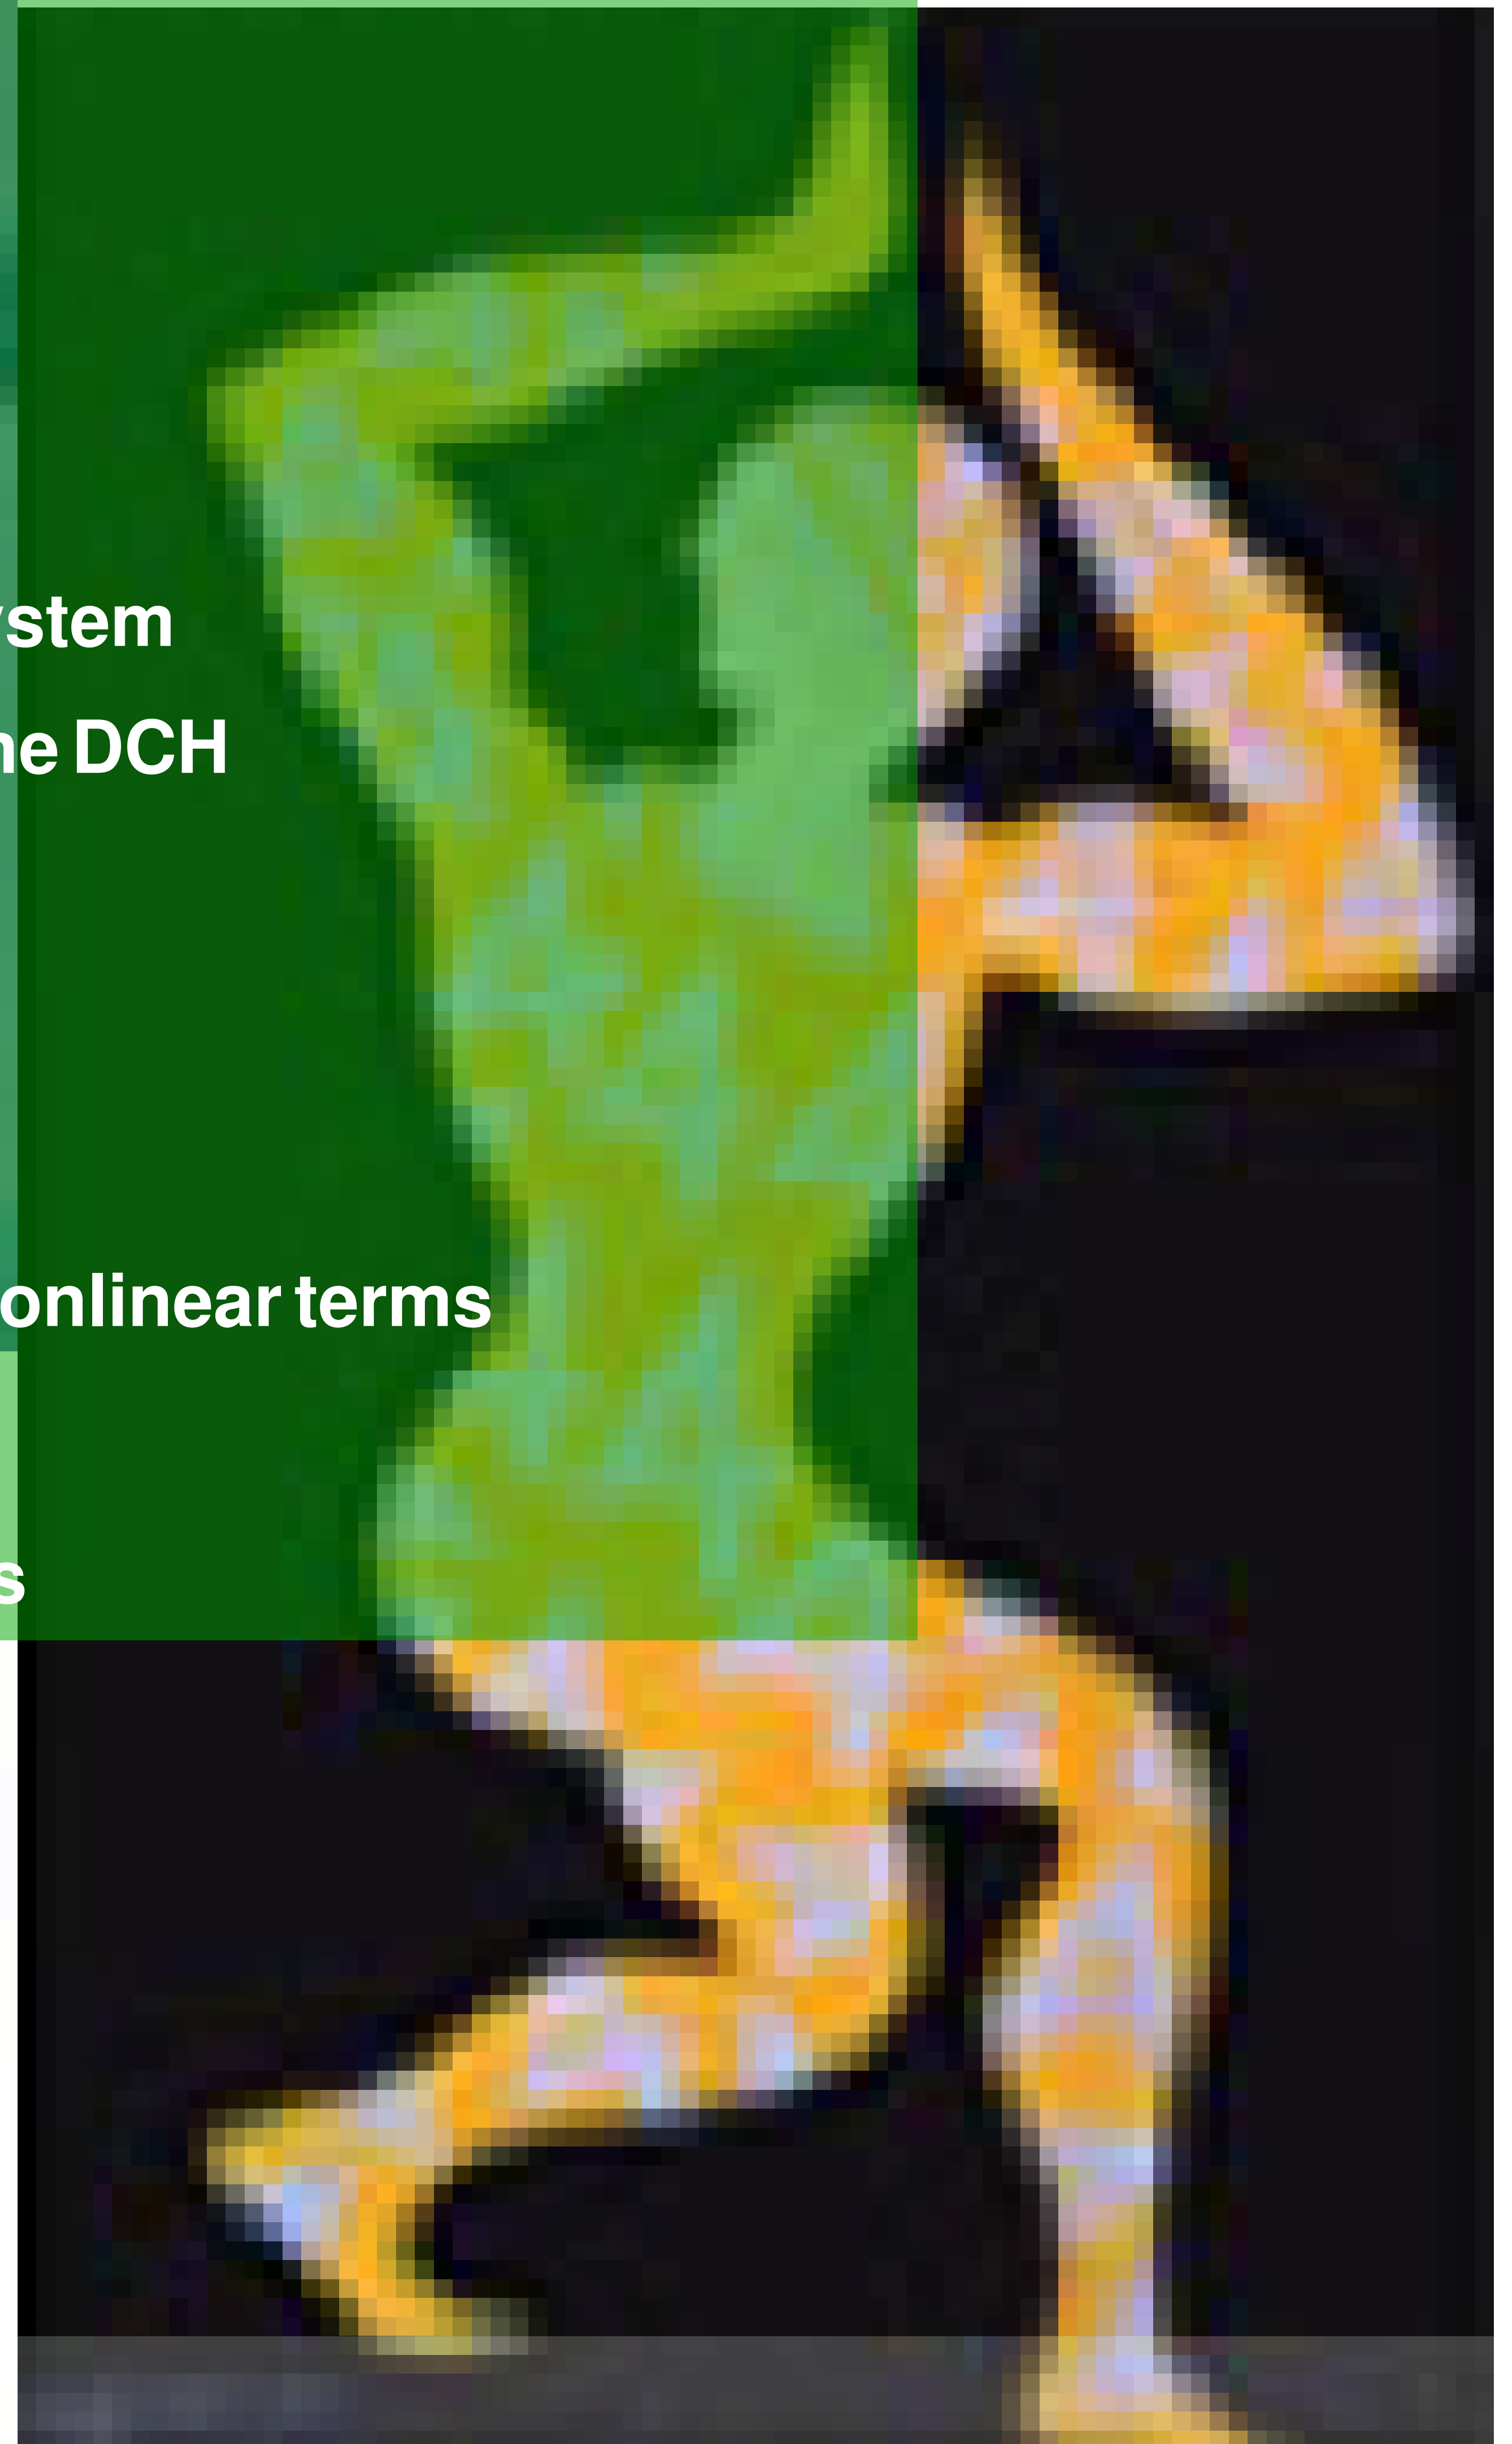

An overview on Virtual Element Methods

Organizers:

Elena Bonetti,

Elisabetta Rocca,

Giulio Schimperna
